"Levels were run and measurements taken to establish limit of benefit area, and a height of 18 inches was adopted for such limit above the banks of the Bennett Creek. After the high water, and before commencement of work, the centre stakes will require to be marked with the cuts, and slope stakes set out, and a specification prepared for the guidance of the contractor.

"The ditching already done in the old channel between Stations 27 and 69 will be utilized by the new channel, and the line from Station 88 to the end was run along old bed of creek and near the foot-hills,

thereby cutting the narrow meadow as little as possible.
"The ditch will be 2§ miles long, and for the first 4,000 feet will require to be eight feet wide on bottom, and the balance 10 feet wide, and sloped one to one, having an average depth of about four feet.

"The scheme is wholly feasible and practicable, and the estimated cost is \$3,585.

"I have the honour to be, gentlemen,

"Your obedient servant,
